

DEAR COLLEAGUES!

We invite you to take part in the International Scientific and Technical Conference "Actual Problems of Powder Material Science" dedicated to the 85th anniversary of the birth of Academician VN Antsiferov, which will be held on November 26-28, 2018 on the basis of the Federal State Budget educational institution of higher education "Perm National Research Polytechnic University" at the address: 614990, Perm, Komsomolsky prosp. 29.

The conference involves the participation of leading specialists engaged in research, development, production and use of powder materials from a number of organizations in Russia, Belarus, Kazakhstan, Israel, Sweden, Serbia and other countries.

By taking part in the conference you will have an opportunity to present information about your work, get acquainted with the latest developments of colleagues from different countries, discuss the possibility of joint research, expand business contacts.

THEMATICS OF THE CONFERENCE:

1. Powdered metal and composite materials.
2. Powder materials in additive technologies.
3. Ceramic powder materials.
4. Powder functional materials, nanomaterials and nanotechnologies.

In the sectional reports it is supposed to present the fundamental and applied results of theoretical and experimental studies of the formation of the structure and properties of

materials, the technologies for their production and the fields of application.

LANGUAGES OF THE CONFERENCE:

official languages of the conference are Russian and English.

IN THE PROGRAM OF THE CONFERENCE:

- plenary reports;
